Greetings to the Graduates

The pomp and ceremony of convocation exercises formally mark an important life transition for you, our graduates. Surrounded by proud families, friends, teachers and mentors, you may now move forward with confidence, having earned our admiration and praise.

Each of you chose to follow a rigorous intellectual path and each has proved worthy. Today, you mark an important milestone in your life while we, your community, mark an important one in ours. Ninety-nine years ago, the University of Alberta was founded on a scrubby piece of riverbank by men and women who believed this province should be built on a foundation of knowledge.

At that time, our founding president, Henry Marshall Tory, promised that the knowledge within these walls would not remain here, but would flow forever outward in service to our community. Today, you join more than 200,000 University of Alberta alumni worldwide in fulfilling that promise.

I would like to extend my heartfelt congratulations to this year's University of Alberta graduates.

Graduation is one of life's great defining moments. It is the culmination of years of hard work, perseverance and commitment. And it represents the achievement of an important goal.

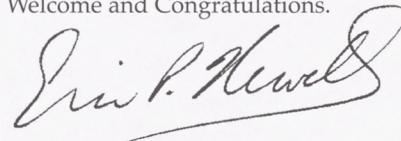

Now, another exciting chapter in your life is about to begin. Your time at the University of Alberta has prepared you for this next step and provided some of the tools needed for your success.

Each of us has a calling or vocation that inspires or motivates us. Postsecondary education fosters that inner desire by fanning the flame and providing the knowledge and skills needed to pursue your passion.

Since those first classes back in 1908, our community has grown beyond the borders of Alberta to encompass the world in one global community. Learning to live peacefully and prosperously in this community will require leaders and citizens of vision, commitment and drive. More than ever, the world needs leaders and citizens like the people you have become.

While today may seem like an ending, it is not. Today is a beginning, a first step along a new path. You will continue to grow, to learn and to contribute. You will also continue to be a life-long member of our University of Alberta community.

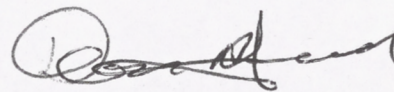

Welcome and Congratulations.

Eric P Newell, OC, LLD (Hon)
Chancellor

Your academic accomplishments have also given you a solid educational foundation, providing for continued learning in the years to come. Ongoing education will ensure your career continues to expand, evolve and flourish. Never lose that passion for learning or that thirst for knowledge.

Again, my warmest congratulations to you on this day of celebration and best wishes in your future endeavours.

Honourable Denis Herard
Minister of Advanced Education

Greetings from Faculty and Staff

Universities began as small collections of scholars who worked together to preserve and advance knowledge. Students came to study with them and, in due course, an administrative structure arose to provide system and recognition for those studies. This ancient structure is preserved at the University of Alberta, with the faculty and the students providing the core of the University's purpose: teaching and the advancement of knowledge.

The faculty and staff congratulate you, the graduates, on the successful completion of your present studies which is recognized by the degrees to which you are admitted today. We hope your present knowledge provides a sound base for an education which will continue throughout a rewarding life. To quote Honorary Degree Recipient Tommy Banks: "Try to be a good person. You will be amazed how rewarding it is."

Congratulations from the Faculty and Staff!

Honorary Degree Recipient

Tom Jackson

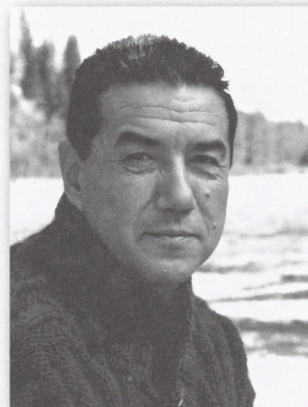

Born in Saskatchewan on the One Arrow reserve and raised in Winnipeg, Mr Jackson left school at age 15 and spent seven years living on the streets of Winnipeg. This experience helped to define the core of his character – tenacity, leadership, and a determination to succeed.

An award winning performer, Tom Jackson is famous among Canadians for his character Chief Peter Kenidi on CBC's hit television series *North of 60*. He also starred in movies such as *The Diviners*, *Grizzly Falls* and *The Water Giant* and has been nominated for, and received, Genie and Gemini awards. Mr Jackson's gifted voice can also be heard narrating television projects such as *Life & Times*, *The Snow Eater* and *Great Canadian Rivers*. As a musician, Mr Jackson has recorded 13 albums, with two of his albums receiving Juno nominations.

Among his numerous altruistic endeavours, he combined his musical talent with a national effort to end hunger by creating the Huron Carole Benefit Concert Series, an annual cross-country concert tour to raise money for the Canadian Association of Food Banks. After 17 years, the tour has played from Victoria to St John's, hosting a wide variety of Canadian artists during the Christmas season and raising over \$3.55 million for the Canadian Association of Food Banks. In 2002, he created and hosted the CBC Newsworld coverage of Say Hay, an event to raise funds for drought-stricken prairie farmers. Mr Jackson also created the Dreamcatcher Tour, an annual tour of over 160 reserves and urban locations dedicated to bringing music and a message of empowerment to communities suffering the loss of young lives to suicide.

Tom Jackson was appointed an Officer of the Order of Canada in 2000 and received the Queen's Jubilee medal in 2002.

Tom Jackson, an accomplished musician, actor and activist, has made a significant impact on Canadian society through his humanitarian efforts and his dedication to making a difference in the lives of the less fortunate.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Tom Jackson:

Goetz, Delia and Sylvanus G. Morley. The Creation of the World as Told by the Quiché Maya: in the Popol Vuh. Edition Kaldewey Vol. 37. New York: Tower of the Poestenkill, 2003. One of an edition of 30 copies, signed by the editor.

The Popul Vuh is from Guatamala and considered to be the oldest pre-Columbian book. The text is printed in the Quiché language on paper made from the bark of the fig tree in the Mayan tradition. Along with an English translation the accordion style book is enclosed in a linen box with gold stamping by Judi Conant. An important addition to the Javitch Collection of Amer-Indian books.

Congratulations Graduates

Congratulations *Honorary Degree Recipient*

Daniel Kahneman

Dr Kahneman was born in 1934 in Tel Aviv in the British Mandate of Palestine, now in Israel, and spent his childhood years in Paris, France. In 1946, he returned to Palestine with his family.

Dr Kahneman received his Bachelor of Science degree in mathematics and psychology from the Hebrew University in Jerusalem in 1954, and then served in the Israeli Defense Forces, principally in its psychology department. In 1958, he came to the United States and earned his PhD in psychology from the University of California, Berkeley in 1961.

He was a professor of psychology at the Hebrew University in Jerusalem, the University of British Columbia and at the University of California, Berkeley, before becoming a faculty member at Princeton University.

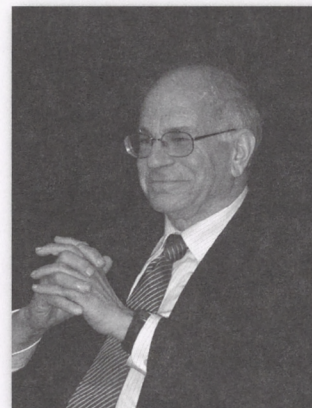

Dr Kahneman is a key pioneer and theorist of behavioural finance and prospect theory, which describes how individuals make decisions under conditions of risk and explains seemingly irrational risk management behaviour in human beings.

He was awarded the 2002 Bank of Sweden Prize in Economic Sciences in Memory of Alfred Nobel (with collaborator Dr Amos Tversky of Hebrew University now deceased) for ground-breaking work integrating psychological research into economics. In its announcement of the prize, the Royal Swedish Academy of Sciences cited Dr Kahneman "for having integrated insights from psychological research into economic science, especially concerning human judgment and decision-making under uncertainty."

He is a member of the American Academy of Arts and Sciences and the National Academy of Sciences. He is a fellow of the American Psychological Association, the American Psychological Society, the Society of Experimental Psychologists, and the Econometric Society.

Among numerous awards, Dr Kahneman received the Grawmeyer Prize in Psychology (with Amos Tversky), the Hilgard Award for Career Contributions to General Psychology, the Distinguished Scientific Contribution Award of the American Psychological Association, and the Warren Medal of the Society of Experimental Psychologists.

Dr Daniel Kahneman, a Nobel laureate, is now the Eugene Higgins Professor of Psychology at Princeton University and Professor of Public Affairs at its Woodrow Wilson School.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Daniel Kahneman:

Smith, Adam. The Theory of Moral Sentiments. An essay towards an analysis of the principles by which men naturally judge concerning the conduct and character, first of their neighbours, and afterwards of themselves. To which is added, A Dissertation on the Origin of Languages. Sixth edition. 2 Vols. London: Printed for A Strahan, and T Cadell, 1790.

This sixth edition of Smith's first book contains extensive additions and corrections completed by the famous Scottish economist before his death in 1790. When it was first published in 1759 it established Smith's reputation as a philosopher not only in London but also on the Continent.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Honorary Degree Recipient

Martha Cook Piper

Dr Martha Cook Piper is an outstanding educator and advocate for higher education and research.

She received a Bachelor of Science degree in Physical Therapy from the University of Michigan in 1967, a Master of Arts degree in Child Development from the University of Connecticut in 1970, and a PhD in Epidemiology and Biostatistics from McGill University in 1979. Following her doctoral studies, she was appointed Director of the School of Physical and Occupational Therapy at McGill University. Her teaching and research have focused on early identification of the developmentally delayed infant and treatment of physically and mentally handicapped children.

Dr Piper joined the University of Alberta as Dean of the Faculty of Rehabilitation Medicine in 1985. She was appointed Vice-President Research in 1993, and the portfolio expanded to include External Affairs in 1995. The Martha C Piper Research Prize is awarded annually to a faculty member at the University of Alberta.

Dr Piper assumed the presidency of the University of British Columbia (UBC) in 1997, the 11th person and the first woman to do so. Dr Piper has been deeply committed to strengthening UBC's position at the forefront of learning and research. She is well known among students for unconventional school addresses in which she often makes reference to a childhood imaginary friend named Bort, a cult figure for many at UBC.

In 1996, former Prime Minister Chrétien appointed Dr Piper to the Board of the Advisory Council on Science and Technology (ACST). She was appointed a member of the Board of Directors for the Pierre Elliot Trudeau Foundation and a member of the National University of Singapore Council in 2002. Dr Piper was appointed a public governor of the board for the Canadian Academies of Science and a member of the Board of Directors for PrioNet Canada in 2005. She is a board member of both the Protein Engineering Network of Centres of Excellence (PENCE) and the Canadian Genetic Diseases Network of Centres of Excellence (CGDN).

Dr Piper was named an Officer of the Order of Canada (2003), Educator of the Year by The Learning Partnership (2004), and a recipient of the Order of British Columbia (2005). She was also recognized as one of five Canadian "Nation Builders" in the *Globe and Mail* (2005).

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Martha Cook Piper:

Brinks, John Dieter, ed., *The Book as a Work of Art, the Cranach Press of Count Harry Kessler*. Berlin and Williamstown MA: Triton Verlag, and the Chapin Library, Williams College, 2005.

Though the Cranach press was located in Germany, its owner, Count Harry Kessler, was inspired by and became an integral component of the English private press movement in the early years of the last century. Most of the pre-eminent typographical luminaries of the period contributed to the Press's output and their work is recorded in this lavishly illustrated book. It includes several essays by noted scholars, extensive documentation and an illustrated bibliography of the Press.

He is also a past president and general manager of the Calgary Stampeders and the CFL, and he was a co-owner of the Calgary Flames in 1989 when they won their first Stanley Cup. Mr Kwong was the first Canadian to have won both the Grey Cup and the Stanley Cup as a player, manager or owner. In appreciation of his participation in bringing the Flames Hockey Team to Calgary, donors endowed the "Normie Kwong Bursary" in Medicine at the University of Calgary which is given annually to a student in financial need.

Since retiring from a player's role in sports, the Lieutenant-Governor has maintained an active interest not only in sports, but also in community affairs. He has served as Honorary Chair of the Easter Seal Campaign in Calgary and as the National Chair of the Canadian Consultative Council on Multiculturalism.

Mr Kwong is a Member of the Order of Canada (1998) and is Chancellor of the Alberta Order of Excellence (2005). In May, 2005 the Queen appointed him a Knight in the Order of St John of Jerusalem.

The Honourable Norman L Kwong is the 16th Lieutenant-Governor of Alberta. He presently resides in Calgary, Alberta with his wife Mary. They have four grown sons and remain devoted grandparents to their five grandchildren.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Norman Kwong:

***Edmonton Eskimos Football Club.
Edmonton: s.n., 1953–1961.***

*This mint collection of Eskimos printed ephemera includes game programs, several issues of the **Gridiron News** and the **Souvenir Grey Cup Year Book** for 1954. This was the first of a three year reign the Eskimos held under the guidance of the newly hired head coach Frank (Pop) Ivy. The very nature of this type of printed material resulted in a very low survival rate. Their addition to the Bruce Peel Special Collections will provide an interesting twist to the strong holdings of western Canadiana, particularly the history of Edmonton.*

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Congratulations *Honorary Degree Recipient*

Matthew Spence

Dr Matthew Spence, an outstanding University of Alberta alumnus, has made exceptional contributions to medicine and public health as a paediatrician, researcher, and administrator.

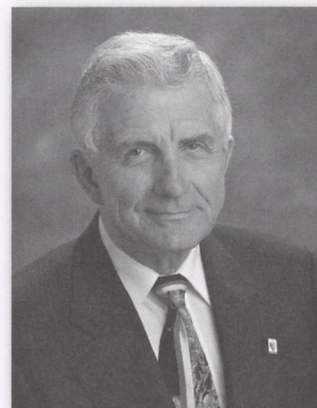

Dr Spence was born in Chatham, Ontario, and raised in Saskatchewan and Alberta. He obtained a Doctor of Medicine degree from the University of Alberta and pursued his post-doctoral training at McGill University and the Montreal Neurological Institute, receiving his PhD in neurobiochemistry.

After four years as a member and junior physician of the Faculty of Medicine at McGill University, and at the Montréal General Hospital, he moved to Halifax, Nova Scotia. In Halifax, he was director of the Atlantic Research Centre for Mental Retardation, professor of Paediatrics and Biochemistry at Dalhousie University School of Medicine, a Medical Research Council of Canada Career Investigator, and Chief of Research at the Izaak Walton Killam Hospital for Children.

In 1990, Dr Spence was recruited back to Alberta to take up the appointment of President and CEO of the Alberta Heritage Foundation for Medical Research (AHFMR). This was one of the highlights of his career and a position he served in from 1990 to 2004. Under his guidance, the Foundation expanded beyond its early biomedical focus to push the envelope of health research. AHFMR now funds over 235 researchers in three Alberta universities.

Dr Spence assisted with the transformation of the Medical Research Council of Canada into the Canadian Institutes of Health Research (CIHR). He was a member of the Canadian Institutes of Health Research Interim Governing Council, and the National Cancer Institute of Canada. Dr Spence is past-president of the Canadian Society for Clinical Investigation and former vice-president of the Medical Research Council of Canada.

Dr Spence is a member of the Boards of the Canadian Health Services Research Foundation, the Canadian Institute of Academic Medicine, and the Institute of Health Economics. He is a member of the Canada Foundation for Innovation and currently serves on the Research Council of the Canadian Institute of Advanced Research.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Matthew Spence:

Hippocrates. Magni Hippocratis coi Opera Omnia. Græce & Latine edita Joannis Antonidæ Van der Linden. 2 Vols. Leiden: Apud Danielelem, Abrahamum & Gaasbeeck, 1665.

A finely bound collected edition of Hippocrates with the text in Greek and Latin in double columns. Sources indicate it to be the first collection edited by the Professor of Medicine at Leiden, Jan van der Linden. This copy has a British Museum deaccession stamp indicating it is a duplicate, dated 1818.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Cécile Mactaggart

Cécile E Mactaggart, author, art collector and philanthropist, is an integral figure in the artistic and cultural life of the City of Edmonton and University of Alberta community.

A passionate advocate of the arts and educational institutions in Alberta and worldwide, she has championed the role of museums in civil society. Her unique ability as an art collector is evidenced by a remarkable Chinese art and textile collection, including paintings, calligraphy, scrolls, and silk robes, that is reputed to be one of the finest in North America. One of the newest additions to the University of Alberta's diverse research collections, this collection will enhance both the University and the city's reputation on the international stage and open new links with China under matching provisions announced by the Province during the Throne Speech in 2005.

The collection will also form the foundation of the University of Alberta's new China Institute, an exciting initiative that will promote outstanding research in both Canada and China. The Institute will offer faculty, undergraduate and graduate students, new opportunities for educational exchange in diverse areas of scholarship, including languages, trade, human ecology and history.

Mrs Mactaggart's visionary support for such endeavours stems from a passionate belief that the arts, education and travel are integral components of each individual's personal growth and every society's health and security. Mrs Mactaggart's passion for literature also includes long-standing support for the Edmonton Public Library.

Mrs Mactaggart has published three books, including *The Rubaiyat of Omar Khayyam: A Personal Selection of Five Editions of Edward Fitzgerald*. She continues to contribute to the advancement of literature, supporting excellence in writing for University of Alberta students and faculty through the Mactaggart Writing Award. This award recognizes outstanding work in the written expression of ideas and enables the winner to further his or her education through travel.

In 2003, she was awarded The Queen's Golden Jubilee Medal, presented by then Lieutenant Governor Lois Hole, in recognition of her dedicated leadership and community support.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mrs Cécile Mactaggart:

Schwartzott, Carol. *Kimono-kosode: a decorative study of the kimono*. Washington, DC: National Museum of Women in the Arts, 2001. Number 88 of an edition of 125 copies, signed by the artist.

In this delightful, informative history of the kimono, the artist has used six different Japanese chiyogami papers to represent the variety of fabric designs used in the construction of kimonos throughout Japanese history. The designs are bound between archival boards and secured in a piano hinge binding of wooden dowels designed by Hedi Kyle. The book is an important addition to the Bruce Peel Library's very strong artists' books holdings.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Honorary Degree Recipient

Gwyn Morgan

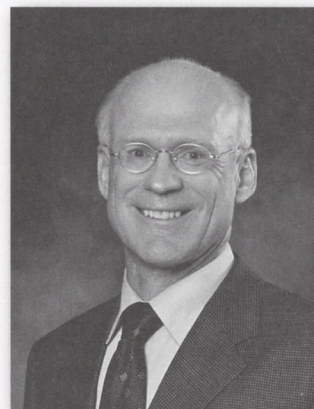

Gwyn Morgan, a University of Alberta alumnus and an outstanding leader in the petroleum industry, is the former president and chief executive officer (CEO) of EnCana Corporation, the nation's largest independent oil and gas producer.

Gwyn Morgan's formal education helped to shape his potential as a leader and solidify core values rooted in his upbringing on a farm near Carstairs. In 1967, Mr Morgan graduated from the University of Alberta with a degree in mechanical engineering. He then pursued post-graduate studies, including the Executive Business Program of Cornell University in New York State.

Since the start of his career, he has dedicated over 35 years to technical, operational, financial and management positions in oil and gas exploration, production and pipelines. Mr Morgan became president and chief executive officer of the Alberta Energy Company Ltd., which he joined during start-up of operations in 1975. Under his leadership, the company experienced substantial growth in asset base and share value. One of his most extraordinary achievements was leading the merger of Alberta Energy Company Ltd. and Pan Canadian Energy Corporation to form the EnCana Corporation in 2002. Mr Morgan was recognized as Canada's Outstanding CEO of the Year for 2005.

Mr Morgan currently serves as the lead director of HSBC Bank Canada, a director of SNC-Lavalin Group Inc., and a member of the Energy Advisory Board of Accenture Ltd. He is a director and vice-chair of the Canadian Council of Chief Executives, a director of the American Petroleum Institute, a director of the Institute of the Americas, and a member of the Board of Governors of The Canadian Unity Council and the Board of Trustees of The Fraser Institute. Past community activities include membership on the Board of Management of the Calgary University Hospital and Foundation, co-chair of the Fundraising Committee for the Northern Alberta Children's Health Centre and co-chair of The Governor General's Canadian Leadership Conference.

Gwyn Morgan is a recipient of the Canadian Business Leader Award from the University of Alberta, the Ivey Business Leader Award from the University of Western Ontario, and the Strategic Leadership Forum President's Award. He is an inductee to the Alberta Business Hall of Fame, a Fellow of The Canadian Academy of Engineering (FCAE) and an Honorary Colonel (retired) of the 410 Tactical Fighter Squadron, Canadian Air Force.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Gwyn Morgan:

Henderson, James. Henderson's Northwest Ranchers' Directory and Brand Book. Winnipeg: W. T. Walker & Co., 1888.

This very rare pristine first edition "brand book" contains the by-laws of the Alberta Stock Growers' association and the first ordinance to be enacted for the marking of stock. It includes a list of early registered southern Alberta cattle brands as well as the names and addresses of the ranchers who owned them. An excellent addition to the Peel's western Canadian holdings and a new entry for the Peel's Prairie Provinces website.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Kenneth Thompson

Kenneth Thompson, a computer scientist, is renowned for developing the UNIX operating system, still widely regarded as one of the most powerful, versatile, and flexible operating systems in the digital world.

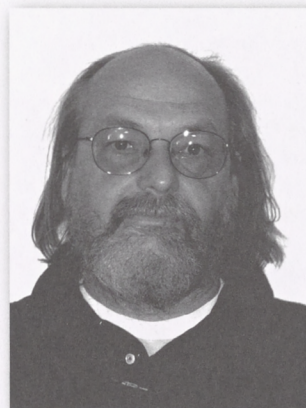

Kenneth Thompson was born in 1943 in New Orleans, Louisiana. His career as a computer scientist started at the University of California, Berkeley, where he received a Bachelor of Science degree in 1965 and a Master of Science degree in 1966, both in electrical engineering. After completing his post-graduate studies, he joined the computing science research department of Bell Laboratories.

In 1969 at Bell Laboratories with colleague Dennis Ritchie, he developed the UNIX operating system, one of the few groundbreaking inventions of computer history. Mr Thompson also developed the B computer programming language, which became a precursor to the C language. In partnership with colleague Joe H Condon, he designed and created "Belle", a chess-playing computer which won the US and World Computing Chess Championships in 1980. In addition, his research in the field of digital audio compression contributed to the development of the current Mp3 player technology.

From 1975 to 1976, Kenneth Thompson was a visiting lecturer in electrical engineering and computer sciences at the University of California, Berkeley and in 1988 he was a visiting professor in the Computer Science Department at the University of Sydney, Australia. Mr Thompson is a passionate advocate for the progress of science, and is known among his colleagues to be a problem solver, tool builder and supporter of young researchers. His pioneering work has international reach and has inspired many computer scientists.

Kenneth Thompson was elected to the U.S. National Academy of Engineering (1980); the US National Academy of Science (1980); and named a Bell Laboratories Fellow (1983). He was awarded the ACM Turing Award (1983) and, with colleague Dennis Ritchie, the National Medal of Technology for the development of the UNIX system (1998).

His innovative work has contributed to the advancement of society, science and computers. Mr Thompson is currently retired and resides in San Jose, California with his wife, Bonnie.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Kenneth Thompson:

Abbott, Edwin Abbott. *Flatland [A Romance of Many Dimensions]*. With an introduction by Ray Bradbury, illustrated by Andrew Hoyem. San Francisco: Arion Press, 1980. Number 124 of an edition of 275 copies, signed by the illustrator/printer.

This satire about a two-dimensional world vexed by single- and multi-dimensionality has been continuously in print since it was first published in England in 1844. This is the eighteenth American edition. It has been hailed as a precursor of science fiction. The illustrations and binding design realize many of the implications of the book. Bound in aluminum covers, in a hinged and clasped aluminum container.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. Honorary Degree Recipient

William Fyfe

Dr William Fyfe, a Companion of the Order of Canada, is widely considered one of the world's most distinguished geoscientists for his groundbreaking research on the environmental implications of human energy consumption.

Dr Fyfe was born in 1927 in Ashburn, New Zealand. He received his Bachelor of Science degree in 1948, his Master of Science degree in 1949, and his PhD in 1952 from the University of Otago in New Zealand. He was a professor at the University of California, Berkeley, Imperial College London and the University of Manchester before arriving in Canada at the University of Western Ontario in 1972. He was Dean of Science at the University of Western Ontario from 1986 to 1990, and during this time established the Interface Science Research Centre. He is a Professor Emeritus in the Department of Earth Sciences at the University of Western Ontario.

Dr Fyfe has made vital contributions to science research, education, and international scientific public policy. He has conducted research into challenges associated with burning coal, ways to replenish soil nutrients and reduce soil erosion, and safe methods for geological disposal of high-level nuclear waste. He revolutionized the field of metamorphic petrology with his investigation of metamorphism, the chemical and physical transformation of rocks under pressure and stress at the base of mountain systems. Dr Fyfe's research also focused on the role of fluids and tectonics in creating deposits of precious metals, particularly gold. He examined a range of biosphere-geosphere interactions, including the role of micro-organisms in concentrating metals and the role of geothermal systems in creating ocean nutrients.

Dr Fyfe's numerous honours include: Fellow of the Royal Society and Fellow of the Royal Society of Canada (1969); Royal Society of Canada's Willet G. Miller Medal (1985); Geological Society of America's Arthur L Day Medal (1990); Natural Sciences and Engineering Research Council (NSERC) Gerhard Herzberg Canada Gold Medal for Science and Engineering (1992); and the Geological Society's Wollaston Medal (2000). Asteroid (15846) Billfyfe is named in his honour.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr William Fyfe:

Transactions of the Chicago Academy of Sciences. Chicago: The Academy, 1867-1870.

Most of the edition of this memorial volume was lost in the Chicago fire of 1869, as was the original journal of Robert Kennicott (1835-1866), an important Ohio naturalist and one of the founders of the Chicago Academy of Sciences. In 1865 Kennicott travelled to Alaska and the Mackenzie River valley, collecting fossils and notes on the nature of the country.

This article by FB Meek contains an early, if not the first, description of the Athabasca Oil Sands in print.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

History of Convocation

Magna Congregatio

In the eleventh century, a new vitality quickened all aspects of the civilization of Western Europe. The creative forces thus unleashed soon found expression in new institutions, and of these the university bids fair to be the most enduring. The modern university is the lineal descendant of the university of the Middle Ages. Its purposes and organization, even much of its ceremonial, are medieval in origin.

The medieval university was originally called a *studium generale*, that is, a place of learning to which teachers and students from anywhere resorted. The first *studia* were at Salerno, Bologna, and Paris. These came into existence spontaneously and developed through the twelfth century as the needs of the time and their inner necessities dictated. In the thirteenth century these spontaneous associations crystallized into guilds or corporations endowed by Church and State with specific privileges which guaranteed the internal autonomy necessary for the vocation of study. To these corporations was increasingly applied the word *universitas* denoting the entire group of those responsible for the transmission of higher learning and the pursuit of knowledge.

By the beginning of the 14th century, two forms of university organization had appeared. At Bologna, primarily a higher school of canon and civil law to which came men experienced in ecclesiastical and secular administration, the control of the *studium generale* passed to the students; hence Bologna was a *universitas scholarum*. On the other hand in Paris and Oxford, whose dominant faculty was the Faculty of Arts, the *studium* emerged under the direction of a guild of teachers, a *universitas magistrorum*. Through its own officials, notably the chancellor (once symbol of external control and by now of internal autonomy), the guild of teachers developed its courses of instruction, administered its own affairs and admitted to its company only those who had met its intellectual standards. The University of Alberta stands in the tradition of Paris and Oxford.

Originally the goal of the medieval student was certification by the guild of teachers that he also was qualified to teach (the *licentia docendi*). With the passage of time the student's progress through the curriculum was marked by ceremonies which signified his successful attainment of a certain level (*gradus* or in modern language, degree) of competence. The Bachelor had completed his apprenticeship in the Faculty of Arts. The Master was now qualified to teach in that Faculty and was thus incorporated into the *universitas magistrorum*.

The Doctor was one who, having obtained the mastership, had successfully completed the curriculum of one of the "higher" faculties (in the Middle Ages, law, medicine, and theology) and was now qualified to teach in those faculties. Inevitably the degrees of the *universitas* did more than admit their holders to the teaching profession. They served the wider social purpose of demonstrating their holders' fitness to serve the entire medieval community.

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval *magna congregatio* of all faculties, is led by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods, and caps, once the sober, disciplined dress of secular clergy and teachers, declare in their various designs and colors the academic qualifications of the Faculty. The citations and presentations by the Faculty to the Chancellor attest to him and to society the degree of proficiency attained by the students of the University. There follows a visible and public act whereby the *universitas magistrorum*, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree bestowed. More, the formula, "I admit you" and the placing of the students' hands within the hands of the Chancellor and his associates, bind the students in the appropriate degree to the *universitas magistrorum*. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

The history of academic dress reaches far back into early days of the oldest universities. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University Coimbra wear gowns. In England, in the second half of the fourteenth century, the statutes of certain

colleges forbade "excess apparel" and prescribed the wearing of a long gown. It is still a controversial question as to whether academic dress finds its sources chiefly in ecclesiastical or in civilian dress. Gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as "academic." (The mortar board - the hard, square cap commonly used as academic headdress today - evolved from the softer, more flexible "square cap" introduced in England about 1490. It is named for the square board on a handle used by stone masons for holding the mixed mortar to be applied to walls.) Both Cambridge and Oxford have made academic dress a matter of university control to the extent of even its minor details and have repeatedly issued revised regulations. In Laudian days in Oxford it was prescribed that any tailor who departed from authorized design "even by a nail's breadth" in the making of any article of collegiate costume was to be punished by the vice-chancellor of the university.

Academic dress at the University of Alberta generally follows the prescription of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. See the Academic Dress page in this program for a detailed description of the academic dress at this institution.

In addition to the apparel worn by holders of degrees conferred by the University of Alberta, a collection of apparel specific to particular offices has also been developed. The President of the University wears a green gown faced with gold braid trim and lining and a black cap with a gold tassel. The Chancellor and Chancellors Emeriti wear gowns of teal blue with silver trim and black caps with silver tassels. The gowns of the senior officials bear an embroidered crest of the University. University Governors and Senators wear stoles bearing the crest of the University over their gowns: gold for Governors and green for Senators. The University Registrar wears a green gown with gold trim on the sleeves.

Graduates and staff of the University of Alberta who wish to purchase their own academic apparel are invited to contact the Assistant Registrar, Academic Awards and Ceremonies in the Office of the Registrar and Student Awards. The University Coat of Arms

Quaecumque Vera

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto *Lux et Lex*; the words "University of Alberta" were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

Shield: a representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

Crest: a Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

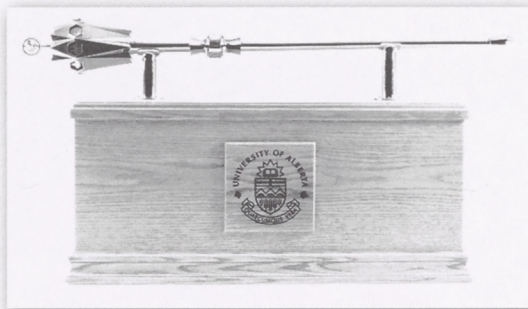

Supporters: a pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

Motto: *Quaecumque vera*
("Whatsoever things are true,"
Philippians 4:8)

The arms are copyrighted and may not be used without permission of the Board of Governors. The name of the University is similarly protected.

Mace and Ceremonial Chairs

University Traditions

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. Michael Galbraith presented the Mace on behalf of his father on May 26, 1970.

Among its elements are the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto "Quaecumque Vera" ("Whatsoever Things Are True" Phil 4:8) encircles the staff. The Mace is made of sterling silver which was rhodium plated after the insertion of the various enamelled shields which make up its elements. A special electroplate process was used to apply 24 karat gold to other parts of the Mace.

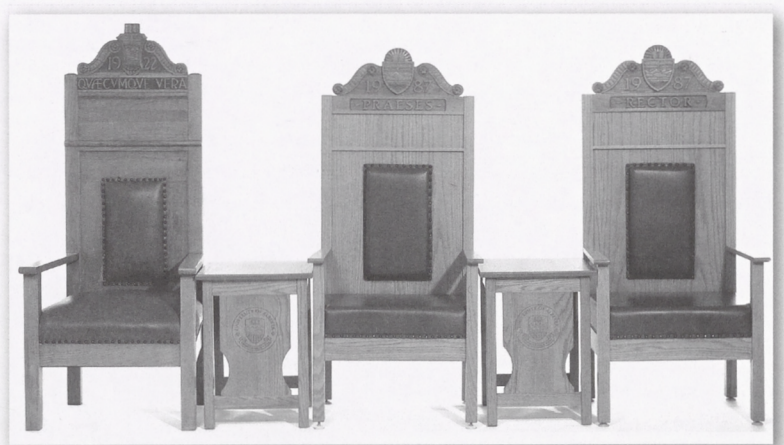

It was intended that the Mace should be modern in appearance but with medieval origins. The preponderance of visual weight at the top of the staff and the rather complex section through the metalwork at this point are reminiscent of the use of the mace as a weapon, defensive or aggressive.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power - but the power of knowledge and the importance of the University in the community.

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded-leather back is carved the University motto "Quaecumque Vera" together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of an oak stand for the University of Alberta Mace and two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

In 2006, a fourth chair was donated in memory and honour of, Lois Elsa Hole, beloved Chancellor (1998–2000) and Lieutenant Governor (2000–2005), by Earl Evaniew, Sandra Kereliuk and their daughter Jennifer. This chair becomes part of the seating arrangements on stage, when the Lieutenant Governor or other high profile dignitaries attend the convocation ceremonies.

Academic Dress

Ceremonial Colors

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point.

Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

Doctorate Degrees

'Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctors' hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on

the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

Honorary Doctorates

Honorary Doctors of Laws (LLD), Letters (DLitt), and Science (DSc) wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.
